Comments: The UAA was conducted in July, 2005 and no WBCR was observed. The stream did not meet the depth criterion in the only site that was evaluated. That site is approximately 1.5 mile upstream of the mouth. No interviews were conducted. The committee does not feel there is enough information to make a determination about the WBCR designation and recommends more data be gathered.

**Committee Recommendation:** ☐ Retain Use ☐ Modify Use ☐ Remove Use ☒ Inconclusive
